Foods Database	Food Group Serving Input Method Needs to be Updated	When the MyPyramid Database within CRS5 is updated the placeholders for fats, sweets and oils needs to be activated so that this data can be entered.	From the Nutrition Switchboard click on “View/Edit Recalls”, click on the blue explode button an adult
Foods Database	Search Function Needs to be Updated	<ol style="list-style-type: none"> 1. When searching for food items that contain a letter e.g., "Special K" or a number e.g., “7-up” you can not search if you include the letter or number. If possible this needs to be updated (this is possible on MyPyramid.gov) 2. When searching for food items the results are returned alphabetically. If possible it would be helpful for results to be returned by closest match (this is how searches are done on MyPyramid.gov) 3. Spell check needs to be run. For example, French Dressing is spelled “French Dresssing” which may cause issues when people are searching for foods – a temporary fix for this is to click on the checkbox to use the soundex feature. 	From the Nutrition Switchboard click on “View/Edit Recalls”, click on the blue explode button for the adult of interest, click on “Add Recall”, “View/Edit Food Items”, and “Add Food Item”
Operating System	Vista Compatibility	CRS5 does not work with Vista and there is no patch. Universities are beginning to convert to this new operating system.	
Poverty Guidelines	Needs to be Updated	The poverty guidelines need to be updated so that poverty data can be reported properly. The Poverty Guidelines are only current through 2006. This needs to be a yearly update.	From Tables, click on “Poverty Guidelines Tables”
RDA Table	Needs to be Updated	The RDA Table is the 2002 version and needs to be updated to reflect the more recent DRIs.	From the Tables screen, click on “RDA Table” to view the data or click on “Table Versions” to see version information
Reports	Sizing Issue	On some reports parts of the text seem to be missing. In other cases lines and/or text may extend too far into the margins and create extraneous pages. This error is only true for some default printers.	Varies
System Configuration	Institution Missing	When EFNEP is selected as the program, the drop down list of institutions appears, but it is missing the University of the Virgin Islands. This university needs to be added.	From System Administration click on “System Configuration”
Update History	Error Message	Some users are receiving an error message: "error opening this document - this file cannot be found". When this message is received the Update History PDF does not open. The document is available online: Update History Document .	From System Administration click on “Update History”

Youth: Edit/New Youth Group	Program Options Needs to be Updated	<p>There is no “Other” option under program. This should be updated to match the choices available on the system configuration screen.</p> 	From the Youth Screen select “Youth Groups” and then click on “Add Youth Group” or a blue explode button to edit an existing youth group																																																																																																																														
Youth: Group Leader Summary	Export to Word Function Needs to be Fixed	<p>Convert to Word - When using the "Convert to Word" function for the Youth Group Leader Summary report, some of the data seems to display twice. **Youth:
Youth Group
Record**

**Save and Print
Group Record
Option does not
Work Properly**

When you enter a new Youth Group or edit an existing youth group and click “Save & Print” the Youth Group Record report does not show updated information on Residence, Ethnicity, Race and Grade. When you click “Save” and then reopen the record the "Save and Print Group Record” does update with the correct data.
